PVC CEILING | ACCESSORIES**

# MIOJIO PVC PANELS

## ABOUT MIOJIO

The decorative Miojio ceiling panels are very easy to install and look after. Especially in wet rooms, our PVC panels are an excellent alternative to decorating your ceilings and making them waterproof. They Miojio PVC panels are ideal for cladding ceilings in bathrooms, toilets, kitchens, basements, garages and all other indoor rooms.

The special joining system of Miojio is particularly well suited to clad ceilings simply and quickly. The ceiling panels can be installed continuously and can bridge any length. Ceiling spotlights can be easily build in.

## ADVANTAGES

- Ideal replacement for conventional wall systems
- Cost effective compared to other materials
- Won't corrode and is resistant to most chemicals
- Inner truss design for rigidity and strength
- Highly resistant to moisture and mold
- Class A Fire Rating – potential insurance savings
- Quick and easy to install
